VC 5 Premium

The VC5 Premium is extremely space-saving and just as powerful as a larger vacuum cleaner: the innovative VC 5 Premium compact vacuum cleaner from Kärcher. Thanks to its patented triple telescoping system, the device can be reduced to half its size and can therefore find a space in any home. Despite its size, the vacuum cleaner delivers an impressive cleaning performance that in no way falls short of large sledge-type vacuum cleaners. This is thanks in particular to the switchable Kärcher dry vacuum nozzle with flexible joint. The nozzle requires very little power, but delivers a very powerful performance thanks to its robust design. The bagless filter system with integrated filter cleaning also offers a range of benefits: no costly filter bags and the filter catridge can be removed easily, allowing fast filter emptying. The VC 5 delivers impressive results on all hard floors and carpets– and, with the Premium equipment, even in narrow spaces and on delicate surfaces.
