

NT 65/2 Tact² Tc

The Kärcher Tact² systems are ever popular as specialist systems and as all-rounders thanks to their high level of mobility and excellent performance, their solid construction and their wide range of practical design features. Models with a tilting chassis are particularly efficient in industrial settings, where the removal of liquids, dirt and debris is called for.

1 Tilting chassis with container lock

- to keep the container securely attached to the chassis.

2 Everything to hand

- Convenient to carry by two persons – container is easy to empty.

3 Suction pipes and floor nozzles can be stored in any direction in the accessory holders

- For easy access from all sides.
- Ample storage for a 4 m hose and rubber power cord (10m).

4 Drain hose for emptying liquids.

- Cover remains tightly closed until the contents are drained.
