

SG 4/4

The compact SG 4/4 steam cleaner with powerful 4-bar steam pressure. With continuously variable steam volume control and VapoHydro function for perfect cleaning results without the use of chemicals.

1 Two-tank system

- The fresh water tank can be continuously filled as the boiler and tank are separate.
- Since only part of the overall volume is heated, a constant steam flow is quickly produced.

2 VapoHydro

- Thanks to VapoHydro, the steam level can be infinitely adjusted to the cleaning task.
- In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water.

3 Accessory storage compartment

- The on-board storage compartment enables storage of a variety of accessories.
- Special small parts are always safely stored and cannot get lost.

4 Hygienic cleaning

- Hygienic cleaning without the use of chemical substances.
- The avoidance of aggressive cleaning agents protects the operator and treated surfaces.

SG 4/4, 1.092-282.0, 2017-03-14
